New document management on client profile in HQ

GloveBox is proud to present the first of its kind policy document management technology.

With simple upload and send, to organization and storage, GloveBox allows you to share all of your important commercial documents with your customers and prospects securely.

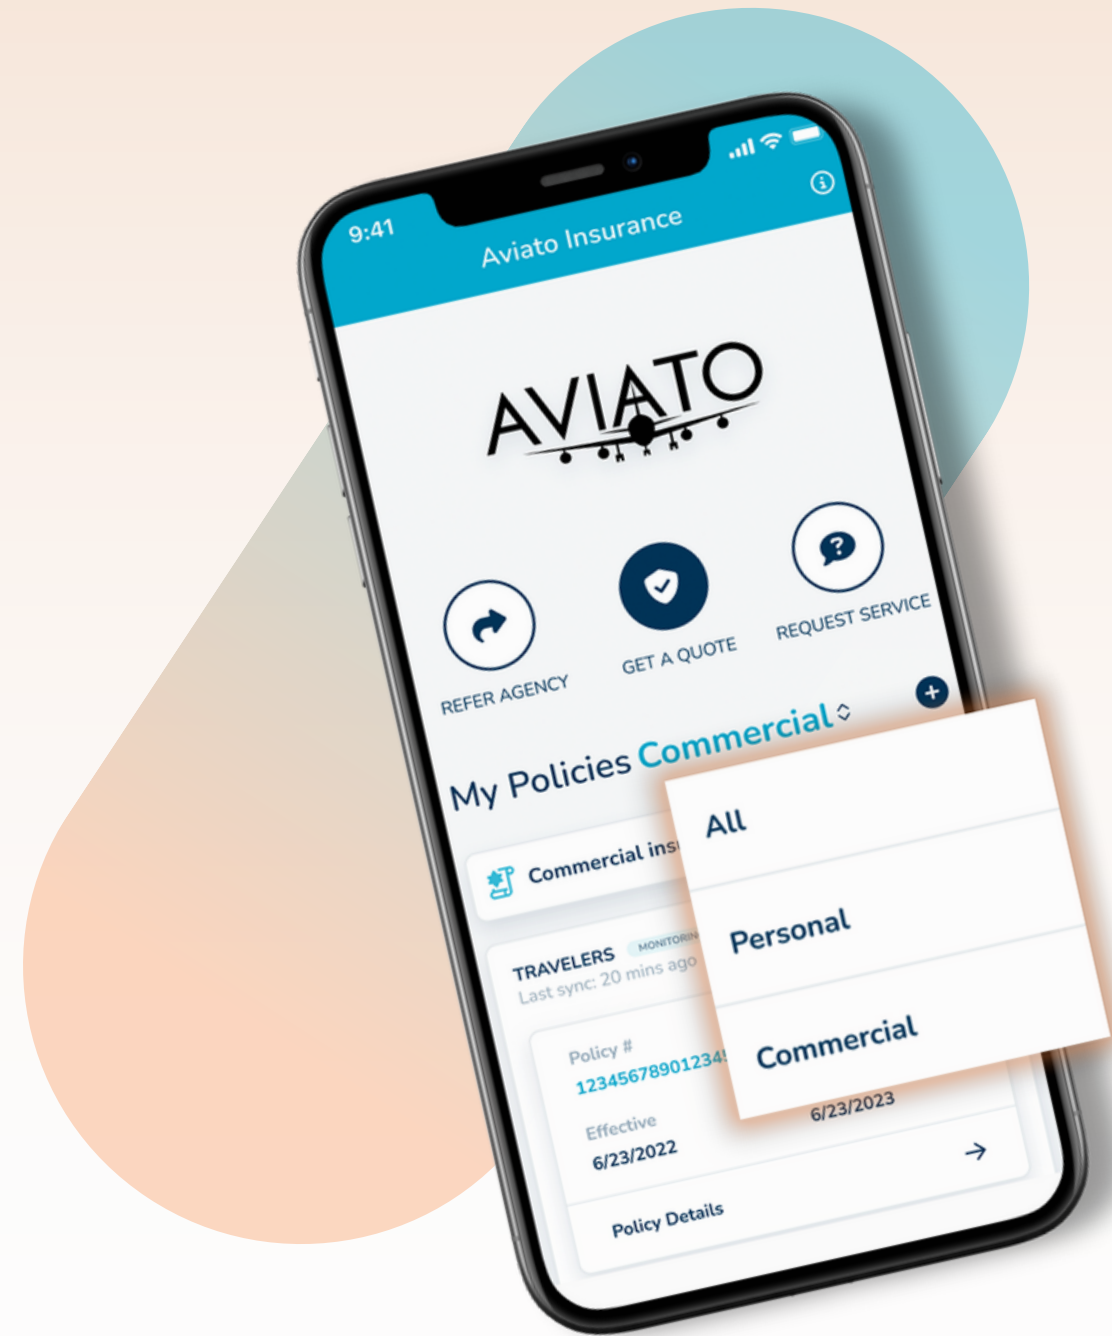

Safeguarded with GloveBox's multi-factor authentication to keep your client's information safe.

Introducing Hybrid

Welcome to GloveBox Hybrid!

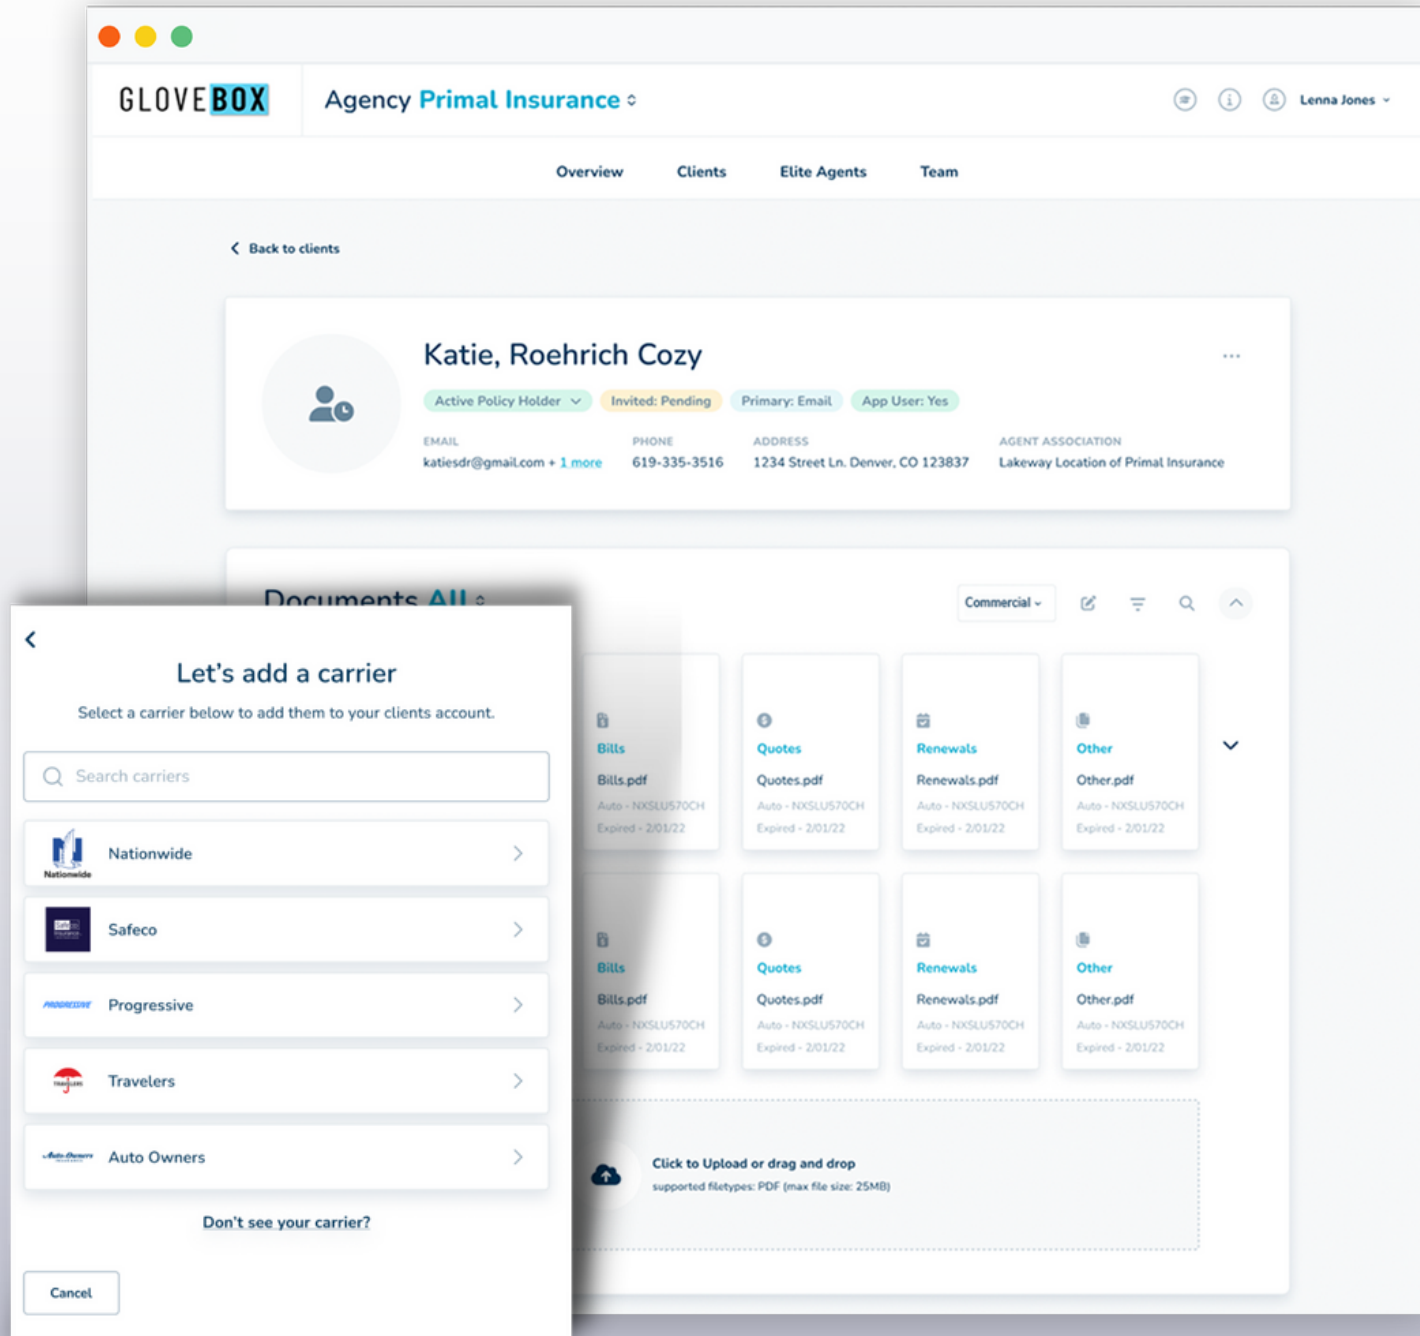

This technology is available in both GloveBox HQ and to your policyholders allowing everyone to manage entire client portfolios, both personal and commercial within a single interface

GloveBox Hybrid makes policy management simple for your policyholders, saving your team massive amounts of time and headache while wowing your customers

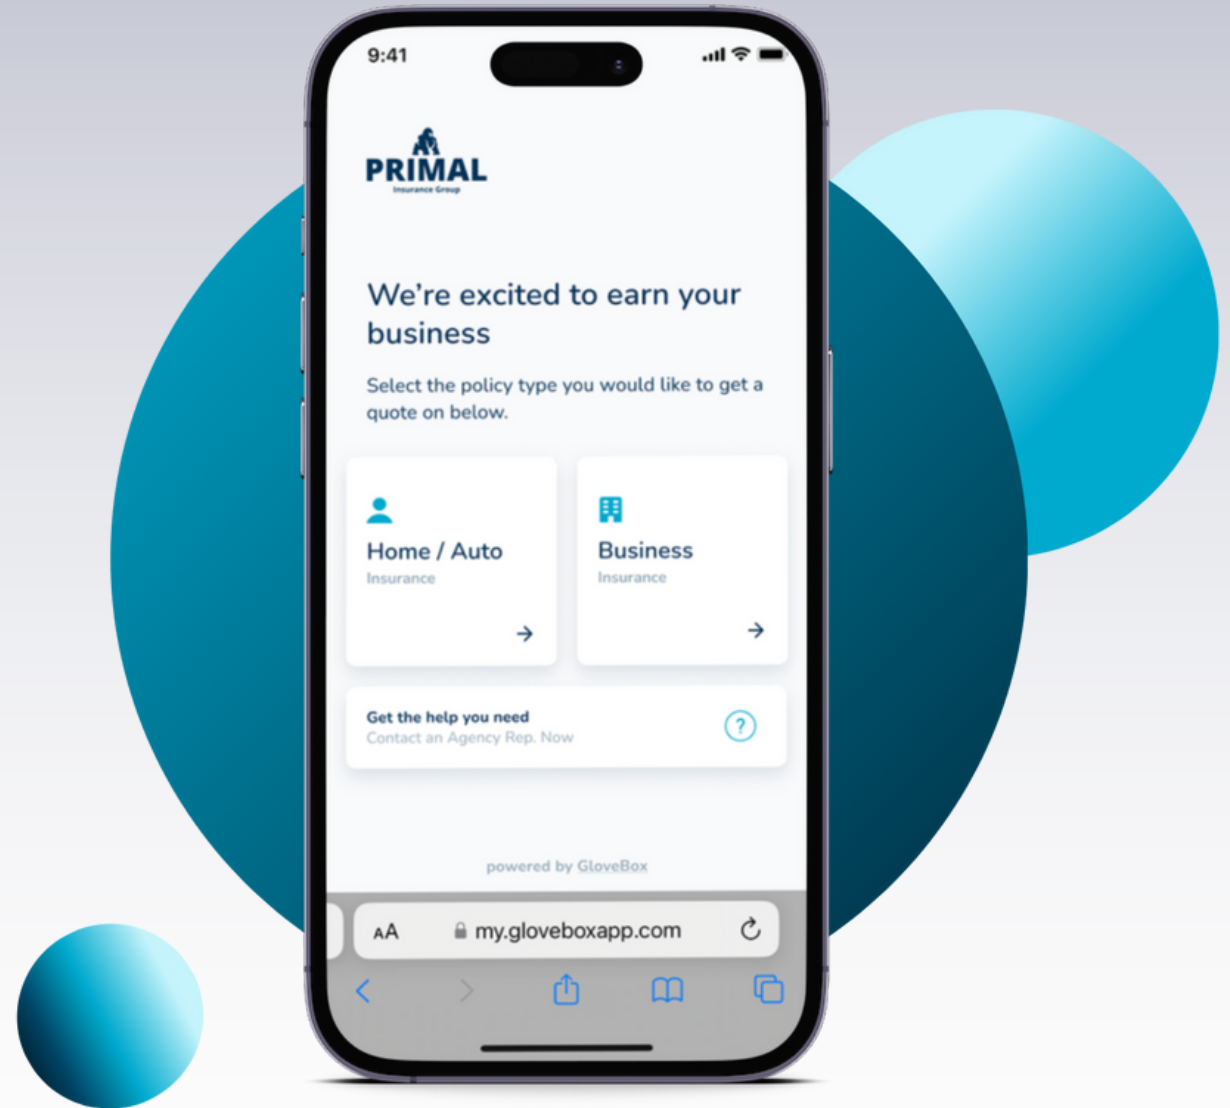

Commercial quote upload

For the very first time, you can now upload commercial quotes in seconds within GloveboxHQ and deliver them to your prospects and current clients with ease. No more junk mail and spam filters, securely present quotes and allow your policyholders to review them on the go!

Commercial quote capture

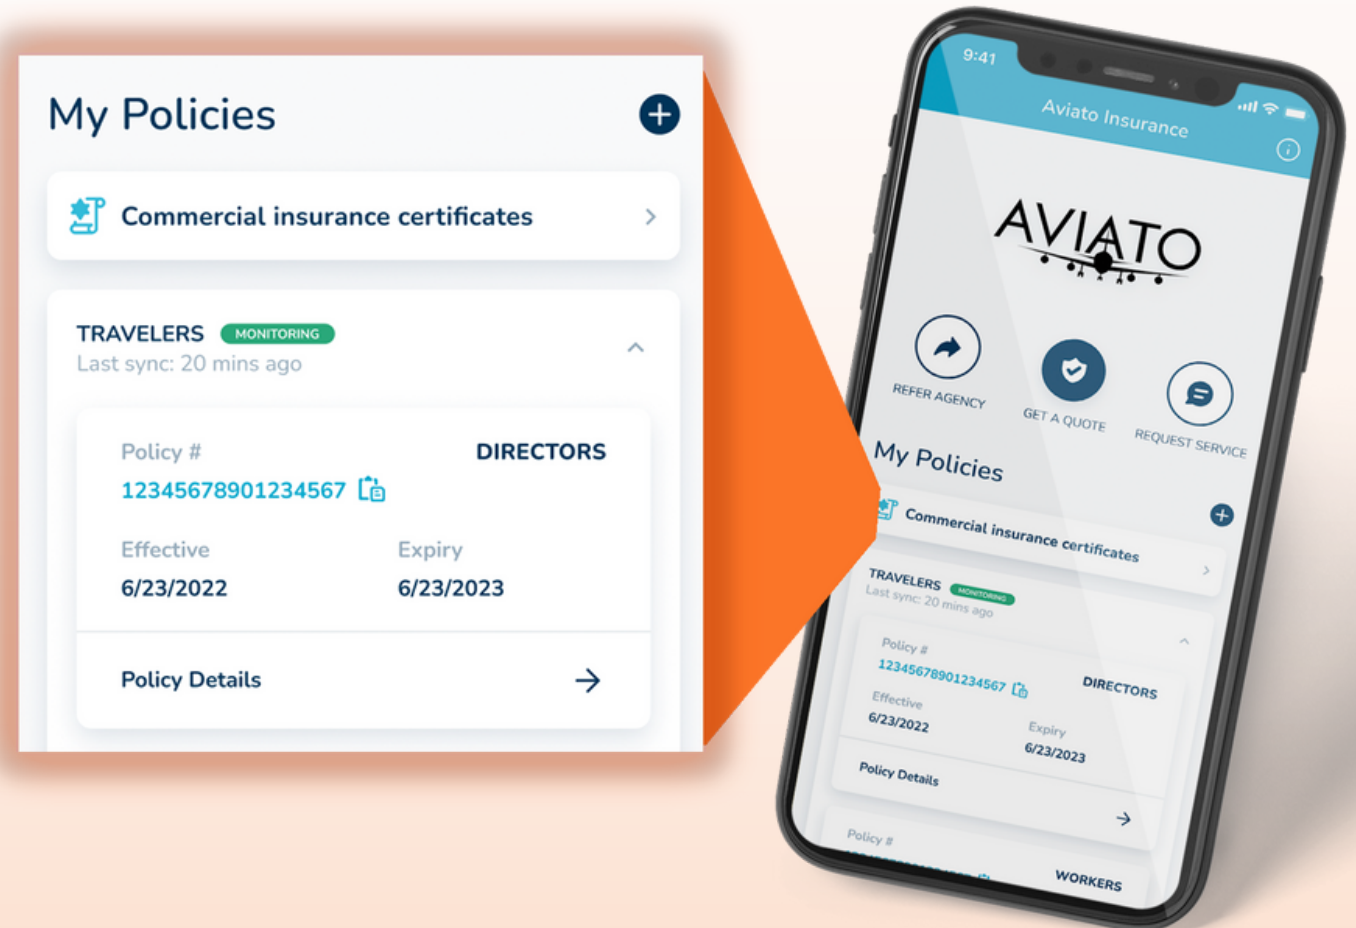

GloveBox makes it unbelievably easy for your new prospects and current clients to request quotes! Now you can embed your custom commercial quote capture directly into the workflows of your mobile and web GloveBox experience

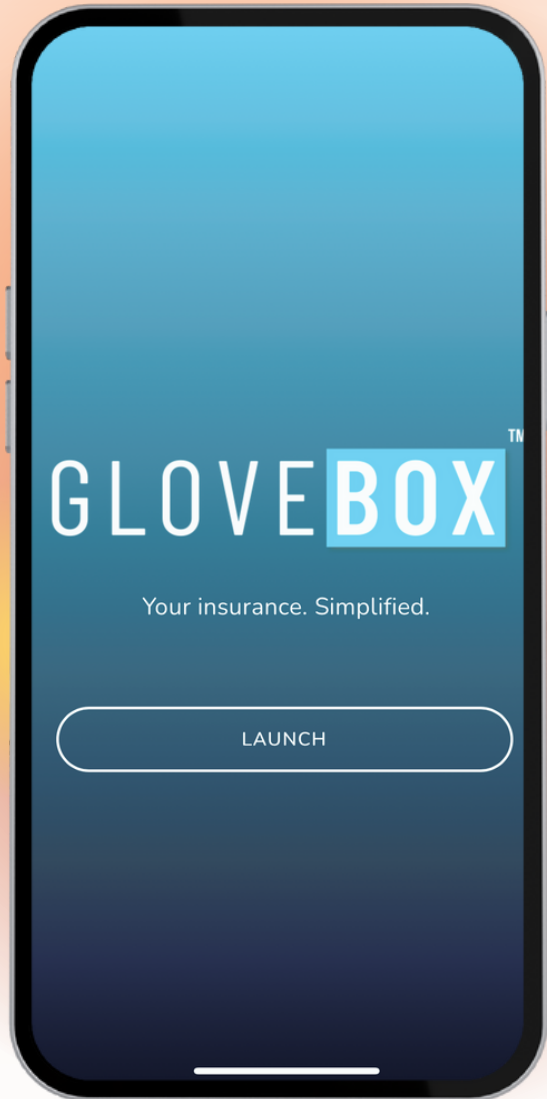

Ready to introduce your commercial clients to your brand new commercial client experience?

To reserve your agency's spot in onboarding, complete the simple form below

Price

The best news of all?

To show our genuine appreciation for your long term partnership with us here at GloveBox, we have built all of this amazing technology without raising our prices for you.

The only price increase would occur if your agency jumps pricing tiers when adding commercial clients to your total client count.
